SEIWA Explorer 23

Chartplotter controller

What it is

The Explorer 23 is a chartplotter in a small, tough control box. Plug it into your own screen and it shows your position, course and stored fishing spots on electronic charts.

Explorer 23

Main features

- Works with any screen that has an HDMI input, so you choose the screen size
- Rugged backlit keys and a joystick, made to be used in any conditions
- Runs C-MAP and Navionics charts
- Marks, routes, tracks and waypoints, with a man overboard key
- Keys you can set to your own favourite functions
- Socket for an outside GPS antenna
- Add a fish finder with the SEIWA SW BBFF CHIRP module
- Works with the SEIWA RC45 remote control
- Connects to other instruments by NMEA 2000 and NMEA 0183
- Micro SD card slot
- Waterproof to the IPX6 standard
- Runs from 10 to 35 volts DC
- Bracket, surface or flush mounting

In the box

Explorer 23 unit with its HDMI cable attached, power cable with NMEA 0183 leads, metal mount with screws.

A screen is not included, and a GPS antenna is needed. Ask Michael what suits your boat.
