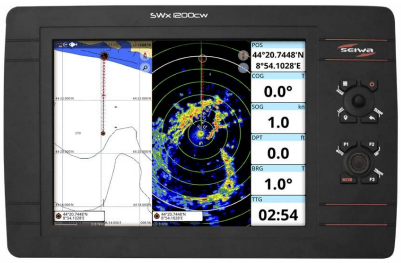
SEIWA SWx 1200w

12 inch multifunction chartplotter

What it is

The SWx 1200w is a 12 inch chartplotter with a touch screen and a keypad. It shows your position, course and stored fishing spots on electronic charts, and a fish finder can be added later.



SWx 1200 range, SWx 1200cw shown

Main features

- 12 inch colour touch screen, 1024 by 768 pixels, bright enough to read in full sun (1250 nits)
- Touch screen and a keypad with a rotary knob, so it can be worked with wet hands or gloves
- GPS receiver built in, with a socket for an outside GPS antenna
- Runs C-MAP and Navionics charts
- Marks, routes, tracks and waypoints, with a man overboard key
- Add a fish finder with the SEIWA SW BBFF CHIRP module
- Keys you can set to your own favourite functions
- WiFi built in for software updates and backing up your marks and routes
- Shows radar when the SEIWA MDS-15 radar antenna is fitted
- Connects to other instruments by NMEA 2000 and NMEA 0183
- Micro SD card slot
- Waterproof to the IPX6 standard
- Runs from 10 to 35 volts DC
- Bracket, surface or flush mounting

In the box

Display unit, power and data cable, mounting bracket kit, two screw knobs.

Charts are bought separately. Ask Michael what suits Western Australian waters.
