SI-TEX SVS-760C

Colour chartplotter

What it is

The SVS-760C is the chartplotter of the SI-TEX SVS-760 range. It shows your position, course and stored fishing spots on electronic charts, on an upright colour screen.

SVS-760 range, SVS-760CF shown

Main features

- 7 inch high definition colour screen, 480 by 800 pixels, upright format, readable in direct sunlight
- Chartplotter that runs both C-MAP MAX and Navionics Gold charts
- Stores 20,000 marks and waypoints, 100 routes and 50,000 track points
- Shows other vessels on the chart when an AIS receiver is connected
- Waypoint steering and navigation highway views
- GPS antenna supplied
- Waterproof to the IPX6 standard
- Runs from 12 to 24 volts DC
- Simple menus, with the controls labelled in plain English
- Snap on sun cover included

In the box

Display unit, GPS antenna, sun cover, mounting bracket, knobs, power cable, owner's manual.

Charts are bought separately. Ask Michael what suits Western Australian waters.
